

STATEMENT REGARDING THE POLICY REFERRING TO QUALITY, ENVIRONMENT AND WORK SECURITY AND HEALTH

S.C. KRANZ EUROCENTER SRL gives a special attention to identifying and meeting its clients' expectations and those of other interested parties, concerning the product/ service providing in order to obtain advantages at the competitive level, under the condition of observing the legal applicable demands regarding environment protection and work security and health.

Therefore, the primary objective of our policy regarding quality and the daily preoccupation of our staff is to satisfy our clients by quality products/service promptly offered, under the conditions of the control of the impact which the activities carried out have upon the environment and of the decrease of the professional accident and illness risks for all positions, both for maintaining trust and for attracting potential clients.

In order to achieve that, we have decided to develop and implement an Integrated Management System Quality, Environment, Security and Work Health (IMS-QESWH) according to standard provisions SR EN ISO 9001:2001, SR EN ISO 14001:2005 and SR OHSAS 18001:2008.

According to the policy referring to quality, environment, security and work health, the following general objectives (strategic objectives) have been established:

- Ensure the customer satisfaction by providing proper, quality products/service which observe the regulations in force, at the dates that have been established by contract and for reasonable prices;
- Ensure the staff motivation by understanding and satisfying their necessities and expectations;
- Optimize total costs by reducing the costs produced by non-quality;
- Reduce the number of customer complaints;
- Improve environment performance of the company by ensuring an insignificant level of the impact of the ongoing activities upon the environment;
- Improve security and work health performance ensuring a minimum level of acceptable risk for all positions by instructing the staff, carrying out the regular medical control and providing the proper protection equipment;
- Certify the IMS-QESWH and maintain the certification.

As the Administrator of S.C. KRANZ EUROCENTER SRL, I pledge to ensure the necessary environment for the satisfaction of the demands and the continuous improvement of IMS-QESWH, by carrying actions as follows:

- Establish the policy and the objectives referring to quality, environment, security and work health;
- Provide the resources and infrastructure necessary to continually develop, implement and improve IMS-QESWH;
- Ensure conformity with the applicable legal and regulation demands;
- Make the staff aware of the importance of satisfying the clients and also of the legal and regulation demands;
- Reduce pollution;
- Avoid work accidents and incidents;
- Plan and manage the analyses made by the management;

In order to develop and monitor the implementation of IMS-QESWH I have appointed as Representative of the Management, the Quality Technical Director, who has this position created to:

- Ensure that IMS-QESWH has been developed, implemented and maintained according to standard demands SR EN ISO 9001:2001, SR EN ISO 14001:2005 and SR OHSAS 18001:2008 and also to the applicable legal and regulation demands;
- Report to me how the IMS-QESWH functions and report all the necessities of improvement;
- Ensure the promotion within the company of the awareness regarding the client's demands and the observance of the legal and regulation demands;
- Communicate to external parties about IMS-QESWH.

The final responsibility regarding the development, implementation and continuous improvement of the IMS-QESWH is entirely my own.

Date: 16.06.2008

General Manager,
Engineer Alexandru POPESCU
